

# MARLIN LEGEND SERIES KEYPAD MOBILE APP

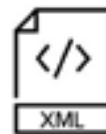

Connect your mobile device (Android or iOS) to your Legend Series keypad for complete control of your digital switching system. This updated user-experience combines mobile technology with the benefits of digital switching.

## FEATURES

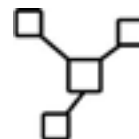

- The app recognizes the keypad the user connects to, and adjusts icons automatically. This way you can use the app with various keypads in various situations.
- The Marlin app is on both app stores under the name “Marlin Keypad” and is free to download.
- The Marlin team will customize our app and publish it under your boat builder name, so your customers download your app to connect to the keypad on your boat. There is a nominal one-time setup charge and annual maintenance charges to deliver this branded experience to your customers.
- Connectivity is via Bluetooth to the Legend Series keypads on your boat.

Fully configurable XML to customize key functions for better user experience.

Mobile connection via Bluetooth to the Legend Series keypad.

Compatible with M-Flex Keypads and Displays, and Simrad and Garmin Displays.
